Mrs./Mr.

KAREL SPRUIJT

Radicado No. AGN- 2-2025-00822

Subject: Response to file number AGN-1-2024-12594

Regarding your communication received by this entity under file number No. 1-2024-12594 of december 11th, 2024, through which you request information about Moses Jacob and Johanna Breuner, who arrived in Colombia. We inform you as follows:

Attached to this response is the database of foreigners who arrived in Colombia during the 20th century. In the Excel file, you can search for the names of the individuals in each tab. Once you have identified this information, including the box numbers, folder, and file, please request a copy to the email grupoinvestigacion@archivogeneral.gov.co.

If you do not find the individuals in the database, it is because the General Archive of the Nation does not have those files, or it is possible that they simply do not exist, as the entry records were not always maintained rigorously.

If the files are found, a quote will be made where 250\$ colombian pesos are paid for each image contained in the file. The process will be carried out through the email provided earlier.
